

AKHILA DAMSARI

An enthusiastic Front-end Designer and Developer with proven experience and a keen interest in developing and advancing by taking challenges and responsibilities, seeking for a new adventure. I am hoping to render my design, creative and problem solving skills to help in developing and implementing creative designs that will add value to your company. I have worked with many kinds of teams and have led a team on multiple occasions to achieve common goals. A very friendly, highly motivated, and sociable character with good communication skills and am willing to work hard and long in order to develop myself and to better contribute to the company I'm working with.
